

# Kainan University students studying the Department of Health Industry Management- Auxiliary Department Implementation Rules

99.08.31 Passed by the 2nd departmental meeting  
99.09.07 Revised and adopted at the 2nd academic meeting  
99.09.14 Passed by the 2nd Academic Affairs Meeting

## Article 1

This regulation applies to Article 28 of the University Law and the provisions of Article 3 of the supplementary department regulations for students in each department of the university °

## Article 2

Students from all departments of our school must have taken more than 16 credits per semester in the previous academic year and have an average score of Those with a score of 75 can apply to add this department as a supplementary department from the second academic year to the first semester of the highest year of study (excluding extending the period of study) °

## Article 3

Those who apply to add this department to a minor department are not allowed to withdraw within one year after selection, but may apply to change to a double major °

## Article 4

Students who study this department as a minor department should complete the required elective courses for the minor department in this department in addition to obtaining credits from prerequisite courses.

Only those with more than 20 credits in the program will be recognized for their minor qualifications °

## Article 5

The required elective courses and the number of credits for the auxiliary departments of this department are listed in the attached table °

## Article 6

If the required courses are the same as the original subjects, you can apply to replace them with elective course credits. However, you still need to complete 20 credits in the department before your qualification as a minor department will be recognized °

## Article 7

The elective courses for the auxiliary departments of this department are the required elective courses for majors in this department °

## Article 8

Students studying in the minor department of this department must abide by the course requirements for students in this department during the period of study in this department °

## Article 9

Students studying in the minor department of this department, if the required courses of the original department are the same as the required courses stipulated by this department, can study in The course must be taken in the original department, otherwise the course should be taken in the same

department as the principle °

#### Article 10

Other matters not stipulated in these regulations shall be handled in accordance with the relevant regulations of the school department °

#### Article 11

This method shall be implemented after it is approved by the departmental affairs meeting, submitted to the academic affairs meeting for approval, and then submitted to the academic affairs meeting for approval, The same applies when correcting °
